

## Setup MFA with Google Authenticator

1. When you Login to your account you will see the following popup

 Microsoft

@iwcc.edu

### More information required

Your organization needs more information to keep your account secure

[Use a different account](#)

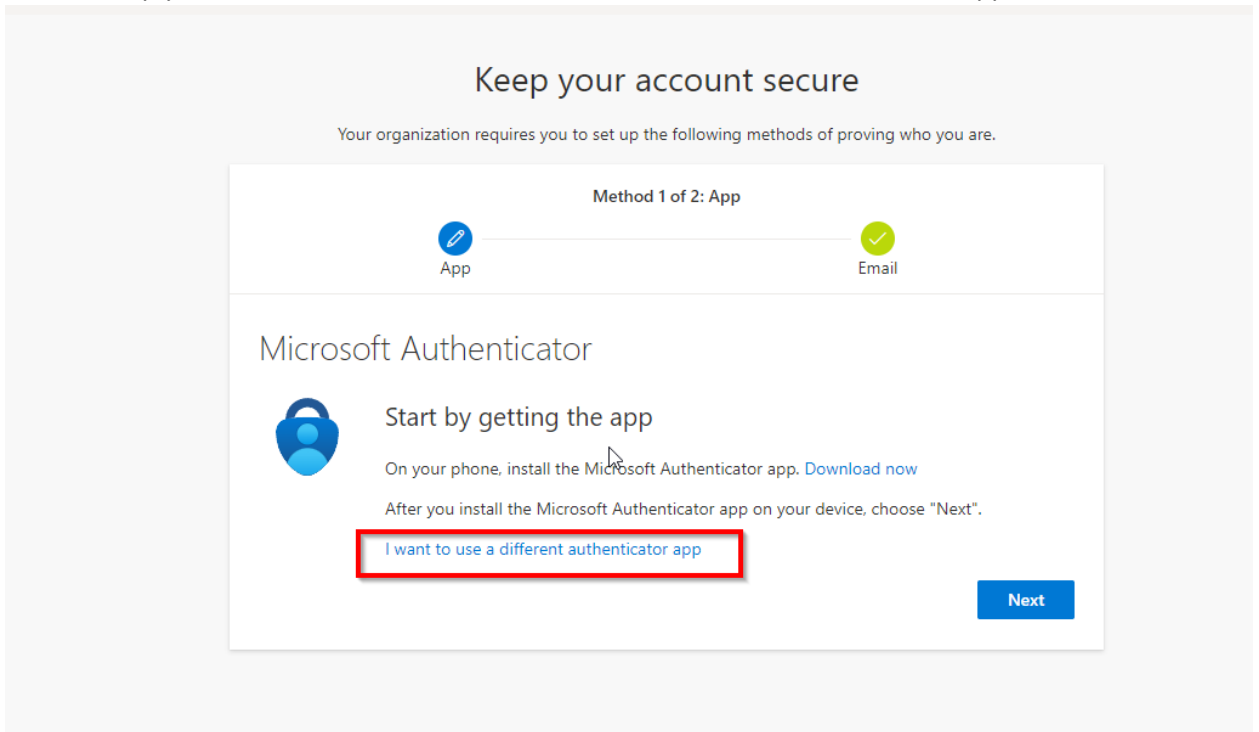

[Learn more](#)

[Next](#)

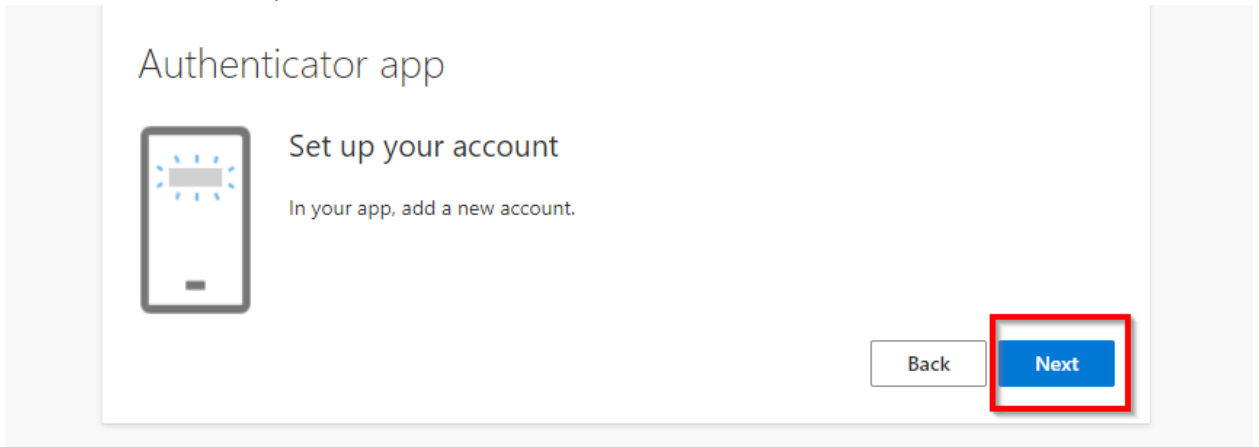

Student account usernames for Microsoft consist of the first letter of first name + last name + last 3 digits of their student ID number "@iwcc.edu" (ie. jdoe123@iwcc.edu). Initial passwords for students are set to iowawestern + last 6 digits of their social security number (ie. iowawestern123456). If you did not provide the college with a Social Security Number, your initial password is iowawestern + 7-digit Student ID number.

## Setup MFA with Google Authenticator

2. At the “Keep your account Secure” click “I want to use a different authenticator App” link

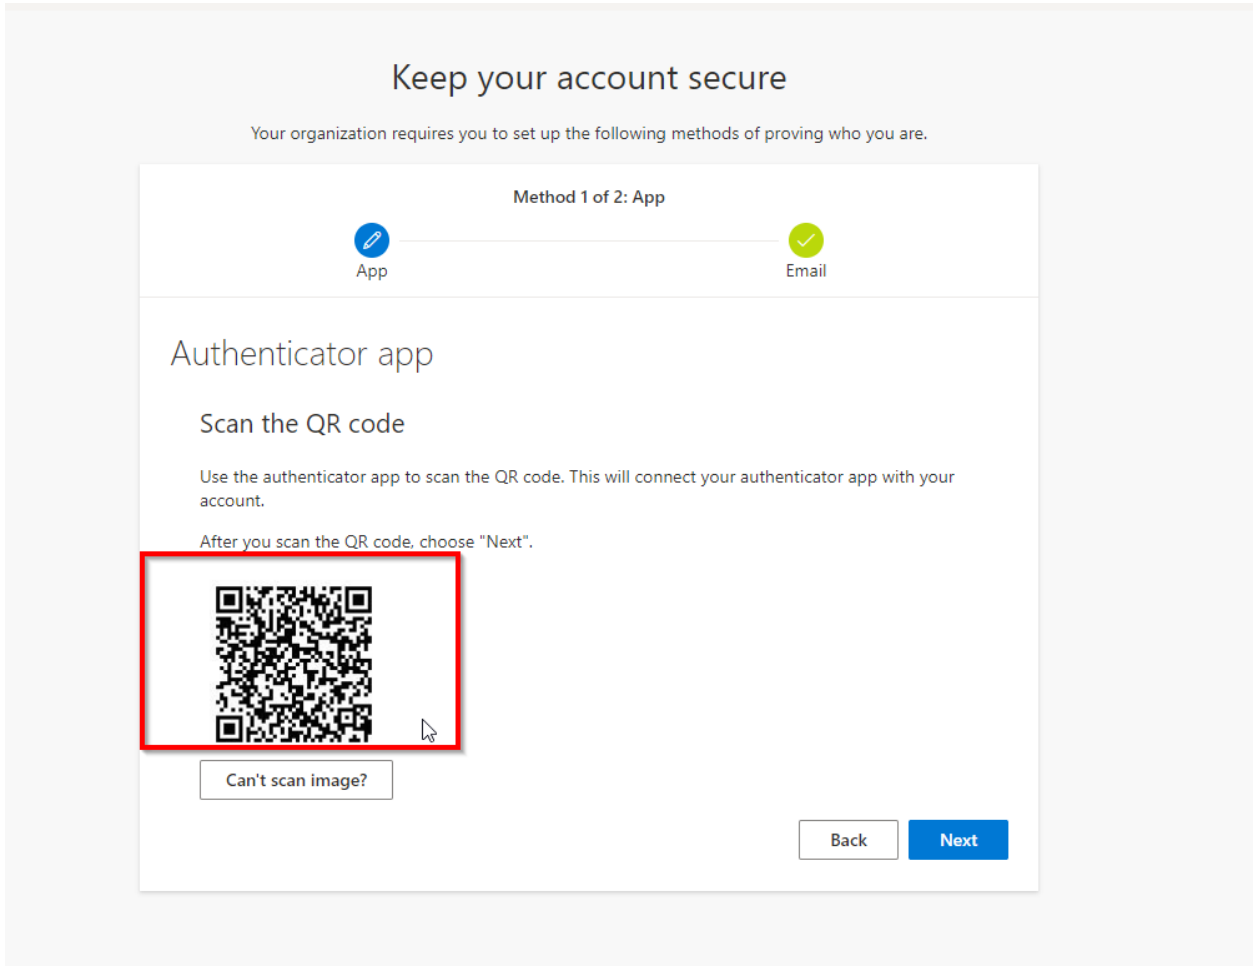

3. Click next to Start setup

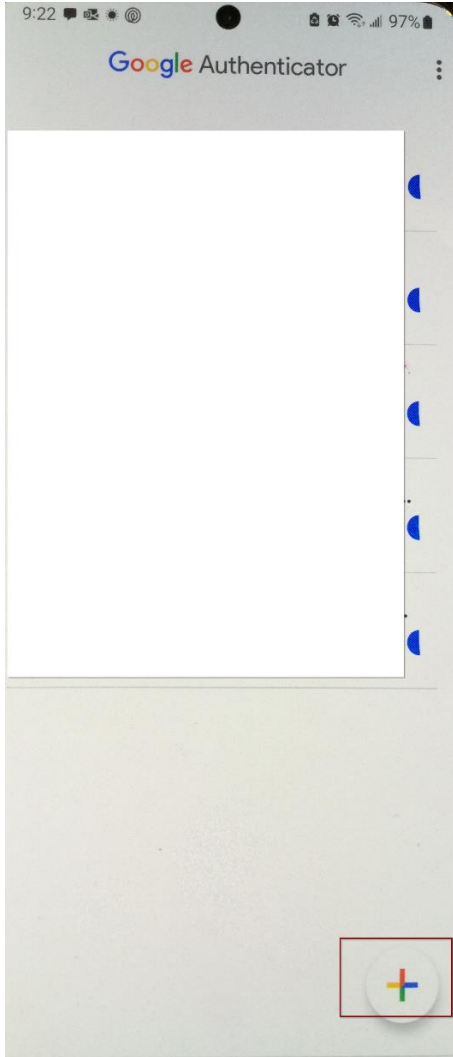

## Setup MFA with Google Authenticator
